"Girls in Aviation Day" Girls encouraged to take up STEM courses and explore career opportunities in aviation & aerospace sectors

IMPHAL, Jun 13

Women in Aviation International, India Chapter and Lockheed Martin Corporation in association with Airport Authority of India (AAI) celebrated Girls in Aviation Day at Imphal Airport today.

With the vision to encourage girls to take up STEM subjects and explore career opportunities in related industries, the initiative is aimed at showcasing opportunities in the aviation and aerospace sectors.

Lockheed Martin, a global security and aerospace company is investing in developing the next generation of future scientists and engineers in India. This initiative also aligns with the Government of India's Skills India initiative.

As part of the program, Women in Aviation International (India Chapter) invited 50 students from various schools for a tour of Imphal Airport.

The visiting students were given an opportunity to explore, learn, and discover the various aspects of aviation and aerospace such as air traf-

fic controller, airline dispatch, pilot, aviation maintenance technician, aeronautical engineer or aviation management.

In addition, the girl students were given a tour of the ATC Tower, Airside, Terminal Building and AOCC and all their queries and questions were answered by the officials working in the respective departments.

Speaking on the occasion, Radha Bhatia, president, Women in Aviation International (India Chapter) stated that this is the third year that the WAI India Chapter is celebrating 'Girls in Aviation Day' and was delighted to host the same in Imphal.

This day is celebrated for the young girls to encourage them to choose aviation as a viable career opportunity.

World over India has the maximum number of female pilots but there are many other avenues that are still unknown. With this celebration, girls from the Manipur were able to explore exciting careers available to them as engineers, air traffic controllers and dozens of other jobs within the aviation, she added.

"We will continue our endeavour to introduce young girls to role models and educate them in a fun and supportive atmosphere. We are very fortunate to be able

to partner with Lockheed Martin India and Airport Authority of India for this event. Their efforts in leading youth into STEM careers is truly commendable," added Bhatia.

Speaking about Lockheed Martin's commitment to this initiative, Phil Shaw, Chief Executive Officer, Lockheed Martin India Private Limited said that the next generation of engineers, technologists, aviators and scientists will be crucial to Lockheed Martin's future and said, "We want to do everything we can to encourage people to consider these careers and that's why we are delighted to once again partner with WAI (India Chapter) and AAI to encourage girls to take an interest in STEM subjects from an early age".

Later, the students were given a small presentation about the industry and its intricacies and an impromptu quiz competition who also won small tokens as prizes.

Students also received an opportunity to interact with Governor Dr Najma Heptulla, chief guest of the event and SK Panigrahi, Airport Director, Imphal Airport.

Manipur Governor hails 'Girls in Aviation Day'

CHRONICLE NEWS SERVICES

IMPHAL: Manipur Governor Najma A Heptulla on Wednesday congratulated Women in Aviation International, India Chapter for taking this initiative to celebrate the Girls in Aviation Day, 2018 for the first time in the N-E at Imphal and to introduce the girls of the state to the wonderful careers and opportunities that aviation offers.

An initiative aimed at showcasing opportunities in the aviation and aerospace sectors, Women in Aviation International, India Chapter and Lockheed Martin Corporation in association Airport Authority of India (AAI) celebrated Girls in Aviation Day. Around 44 girls students

were been taken and shown the ground level of Imphal Tuliha Airport. The open house includes visit inside the airport and discover its various facets, introduction to the different aviation activities, talks with aviation professionals and more importantly, to learn more about the diverse job opportunities at the airport. Speaking on the occasion, Governor opined that the women and girls of Manipur are very brave and extremely talented. They have excelled in different spheres of life. "We all know of their exploits in the field of sports and they have done equally well in the field of arts and culture. They are very much sought after in the hospitality sector everywhere," she said.

In the most recent remarka-

ble achievement, the Manipuri girl, Lt. S Vijaya Devi of the Indian Navy has been awarded the Nari Shakti Puraskar for sailing around the world in an all women's team.

Heptulla further added, "Manipuri girls can do much more if given the opportunities. The educated youths of the state especially the girls are facing acute shortage of job opportunities. I am sure today's function will open a whole new world of opportunities for these girls in aviation. This is certainly in line with the Prime Minister's vision of 'Beti Ki Udaan, Desh Ka Swabhimaan'."

Meanwhile, Imphal to have direct flights connection with other major cities like Mumbai, Bangalore and Chennai in coming years, she informed.

'Professional words should not be gender identified'

DIPR/STAFF REPORTER

IMPHAL: Governor of Manipur Dr Najma Heptulla said that professional words should not be gender identified and as such, professions should not have different names based on gender.

She made the statement during celebration of "Girls in Aviation Day" organized jointly by Women in Aviation International (WAI), India Chapter and Lockheed Martin at Classic Grande, Chingmeirong here Wednesday.

Addressing the gathering as chief guest of the celebration, DR Najma said that women and girls should be trained in every field including those considered mainly as domain of men. She added that the celebration of "Girls in Aviation Day" would introduce girls of the state to the wonderful careers and opportunities that aviation offers.

The governor pointed out that prior to 1970, women were restricted to serving in support fields like flight simula-

tion training, air traffic control and as flight attendants in the aviation industries. However, after 1970, they were allowed to take part in military training, fly commercial airlines, etc. Their strength has considerably increased in comparison with the global number of women airline pilots, she added.

Lauding the talent and potential of Manipuri girls especially Lt S Vijaya Devi of Indian Navy who had been awarded

Nari Shakti Puraskar, Dr Najma said that Manipuri women and girls continue to excel in different spheres of life, sports, art and culture, hospitality and many other sectors.

The girls of the state could do much more if given the opportunities through training in every avenue and livelihood programme which is in line with the Prime Minister's vision of "Beti Ki Udaan, Desh Ka Swabhimaan", she added.

Mentioning about air connectivity and convenience of direct flight between Imphal and Delhi, Dr Najma assured that she would extend all possible supports to help connect Imphal with other Metro cities such as Mumbai, Bangalore, Chennai, etc, through direct flight. This will facilitate students of the state who are studying or working in these metro cities, she stated.

Meanwhile, Lockheed Martin

India chief executive officer (CEO) Phil Shaw conveyed that Lockheed Martin has been providing assistance to shaping the future engineers, doctors, aviator, etc.

On the other hand, Imphal Airport APD S K Panigrahi said that owing to high growth rate of air passengers in recent times with 17% last year, aviation industry has become a big scope for youths in the country. With the launch of UDAN (Ude Desh ka Aam Naagrik) scheme of Government of India, with the objective of "Let the common citizen of the country fly", the aviation industry will continue to provide many opportunities to the youths and, thus, they should be trained to make use of these opportunities and be ready to get a foothold in this industry.

Similar celebration was also held at Imphal Airport by Women in Aviation International (India Chapter) and Lockheed Martin India and it was attended by Lockheed Martin CEO Phil Shaw; Members of Women in Aviation International (India

Chapter) and school students. Later, a short movie on WAI India Chapter was screened. **Addition to Women in Aviation**

For the airport event, Women in Aviation International (India Chapter) invited 50 students from various schools for a tour of Imphal Airport. They were given an opportunity to explore, learn, and discover the various aspects of aviation and aerospace such as air traffic controller, airline dispatch, pilot, aviation maintenance technician, aeronautical engineer or aviation management.

In addition, the girl students were given a tour of the ATC Tower, Airside, Terminal Building and AOCC and all their queries were answered by officials working in the respective departments.

Speaking on the occasion, Women in Aviation International (India Chapter) president Radha Bhatia said, "This is the third year that the WAI India Chapter is celebrating 'Girls in Aviation Day' and we are delighted to host the same

at Imphal. With this celebration, our aim is to see girls from the state of Manipur explore exciting careers available to them as engineers, air traffic controllers and dozens of other jobs within the aviation."

"We will continue our endeavour to introduce young girls to role models and educate them in a fun and supportive atmosphere. We are very fortunate to be able to collaborate with Lockheed Martin India and Airport Authority of India for this event."

Their efforts in leading youth into STEM careers is truly commendable", added Mrs. Bhatia. Post the airport tour, the students were given a small presentation about the industry and its intricacies. In addition, an impromptu quiz competition added to the delight of the students who also won small tokens as prizes. Students also received an opportunity to interact with Governor of Manipur Dr Najma Heptulla and Imphal Airport, Airport Director S K Panigrahi.

Manipur school girls celebrate aviation day

TIMES NEWS NETWORK

Women in Aviation International, India Chapter and Lockheed Martin Corporation in association with Airport Authority of India (AAI) celebrated Girls in Aviation Day at Imphal Airport on June 13.

Women in Aviation International (India chapter) invited 50 girls from various schools for a tour of Imphal Airport. Visiting students explored various aspects of aviation and aerospace such as air traffic controller, airline dispatch, pilot, aviation maintenance technician, aeronautical engineer and aviation management.

"India has the maximum number of female pilots but there are many other avenues to explore. Our aim is to see Manipur girls explore exciting careers as engineers, air traffic controllers and other jobs within the aviation," said Radha Bhatia, President, Women in Aviation International (India chapter).

Post the airport tour, an impromptu quiz competition was also organised. Students interacted with Najma Heptulla, governor of Manipur, and SK Panigrahi, airport director, Imphal Airport.

"Girls in Aviation Day"

Girls encouraged to take up STEM courses and explore career opportunities in aviation & aerospace sectors

Imphal, June 13 2018: Women in Aviation International, India Chapter and Lockheed Martin Corporation in association Airport Authority of India (AAI) celebrated Girls in Aviation Day at Imphal Airport today.

With the vision to encourage girls to take up STEM subjects and explore career opportunities in related industries, the initiative is aimed at showcasing opportunities in the aviation and aerospace sectors.

Lockheed Martin, a global security and aerospace company is investing in developing the next generation of future scientists and engineers in India.

This initiative also aligns with the Government of India's Skills India initiative.

As part of the program, Women in Aviation International (India Chapter) invited 50 students from various schools for a tour of Imphal Airport.

The visiting students were given an opportunity to explore, learn, and discover the various aspects of aviation and aerospace such as air traffic controller, airline dispatch, pilot, aviation maintenance technician, aeronautical engineer or aviation management.

In addition, the girl students were given a tour of the ATC Tower, Airside, Terminal Building and AOCC and all their queries and questions were answered by the officials working in the respective departments.

Speaking on the occasion, Radha Bhatia, president, Women in Aviation International (India Chapter) stated that this is the third year that the WAI India Chapter is celebrating 'Girls in Aviation Day' and was delighted to host the same in Imphal.

This day is celebrated for the young girls to encourage them to choose aviation as a viable career opportunity.

World over India has the maximum number of female pilots but there are many other avenues that are still unknown.

With this celebration, girls from the Manipur were able to explore exciting careers available to them as engineers, air traffic controllers and dozens of other jobs within the aviation, she added "We will continue

our endeavour to introduce young girls to role models and educate them in a fun and supportive atmosphere.

We are very fortunate to be able to partner with Lockheed Martin India and Airport Authority of India for this event.

Their efforts in leading youth into STEM careers is truly commendable" added Bhatia.

Speaking about Lockheed Martin's commitment to this initiative, Phil Shaw, Chief Executive Officer, Lockheed Martin India Private Limited said that the next generation of engineers, technologists, aviators and scientists will be crucial to Lockheed Martin's future and said, "We want to do everything we can to encourage people to consider these careers and that's why we are delighted to once again partner with WAI (India Chapter) and AAI to encourage girls to take an interest in STEM subjects from an early age".

Later, the students were given a small presentation about the industry and its intricacies and an impromptu quiz competition who also won small tokens as prizes.

Students also received an opportunity to interact with Governor Dr Najma Heptulla, chief guest of the event and SK Panigrahi, Airport Director, Imphal Airport.

Girls in Aviation Day held

June 13, 2018

Pothashang News Service: Imphal, June 13, 2018: Governor of Manipur, Dr. Najma Heptulla on Wednesday said professional words should not be gender identified and as such professions should not have different names by gender.

She was addressing at the celebration of "Girls in Aviation Day" organized by Women in Aviation International (WAI) India Chapter and Lockheed Martin at Classic Grande, Chingmeirong, Imphal East today.

She said women and girls should be trained in every field including those considered mainly as domain of men and such celebration of "Girls in Aviation Day" would introduce girls of the state to the wonderful careers and opportunities that aviation offers.

Prior to 1970 women were restricted to serving in support fields like flight simulation training, air traffic control and as flight attendants in the aviation industries. However, after 1970 they had been allowed in military training, flying commercial airlines, etc and their strength is considerably increasing in comparison with the global number of women airline pilots, said the governor.

Expressing a great pride about the Manipuri girls, Lt. S. Vijaya Devi of the Indian Navy who had been awarded the Nari Shakti Puraskar, she said that Manipuri women and girls had excelled in different spheres of life, sports, art and culture, hospitality and many other sectors. The girls of the state could do much more if given the opportunities through training in every avenues and livelihood programme which is in line with the Prime Minister's vision of "Beti Ki Udaan, Desh Ka Swabhimaan", She added.

Mentioning about air connectivity and convenience of direct flight between Imphal and Delhi, Dr. Najma also stated that she would try hard to connect Imphal with other metro cities of India through direct flight. And this will facilitate students of the state who are studying in those metro cities.

APD, Imphal Airport, S K Panigrahi said that owing to high growth rate of air passengers in the recent times with 17% last year, aviation industry has become a big scope for youths in the country. With the UDAN (Ude Desh ka Aam Naagrik) scheme, with the objective of "Let the common citizen of the country fly", the aviation industry will provide many opportunities to the youths and so they should be trained to garner such opportunities and be ready to drive the particular industry.

The celebration was also attended by Mr. Phil Shaw, CEO, Lockheed Martin India, members of Women in Aviation International (India Chapter) and School Students. A short movie on WAI India Chapter was also screened during the function.

That's why we're delighted to once again partner with WAI (India Chapter) and AAI to encourage girls to take an interest in STEM subjects from an early age. Our support for Girls in Aviation is part of a much larger Lockheed Martin commitment to STEM and innovation initiatives in India."

The initiative aims to introduce girls to the possibilities available in a career in aviation

Imphal/ New Delhi, June 13, 2018: Women in Aviation International, India Chapter and Lockheed Martin Corporation in association Airport Authority of India (AAI) today celebrated Girls in Aviation Day at Imphal Airport. With the vision to encourage girls to take up STEM subjects and explore career opportunities in related industries, the initiative is aimed at showcasing opportunities in the aviation and aerospace sectors. Lockheed Martin is investing in developing the next generation of future scientists and engineers in India. This initiative also aligns with the Government of India's Skills India initiative.

As part of the program, Women in Aviation International (India Chapter) invited 50 students from various schools for a tour of Imphal Airport. Visiting students were given an opportunity to explore, learn, and discover the various aspects of aviation and aerospace such as air traffic controller, airline dispatch, pilot, aviation maintenance technician, aeronautical engineer or aviation management. In addition, the girl students were given a tour of the ATC Tower, Airside, Terminal Building and AOCC and all their queries and questions were answered by the officials working in the respective departments.

Post the airport tour, the students were given a small presentation about the industry and its intricacies. Also, an impromptu quiz competition added to the delight of the students who also won small tokens as prizes. Students also received an opportunity to interact with Ms. Najma Heptulla, Governor of Manipur, chief guest for the event and Mr. S.K. Panigrahi, Airport Director, Imphal Airport.

Women in Aviation International, Lockheed Martin India celebrate Girls in Aviation day

Imphal (Manipur) [India], June 13 (NewsVair): Women in Aviation International, India Chapter and Lockheed Martin Corporation in association Airport Authority of India(AAI) celebrated Girls in Aviation Day at Imphal Airport.

With the vision to encourage girls to take up STEM subjects and explore career opportunities in related industries, the initiative is aimed at showcasing opportunities in the aviation and aerospace sectors. Lockheed Martin is investing in developing the next generation of future scientists and engineers in India.

This initiative also aligns with the Government of India's Skills India initiative. As part of the program, Women in Aviation International (India Chapter) invited 50 students from various schools for a tour of Imphal Airport. Visiting students were given an opportunity to explore, learn, and discover the various aspects of aviation and aerospace such as air traffic controller, airline dispatch, pilot, aviation maintenance technician, aeronautical engineer or aviation management. In addition, the girl students were given a tour of the ATC Tower, Airside, Terminal Building and AOCC and all their queries and questions were answered by the officials working in the respective departments.

"This is the third year that the WAI India Chapter is celebrating 'Girls in Aviation Day' and we are delighted to host the same at Imphal. This day is celebrated for the young girls to encourage them to choose aviation as a viable career opportunity. World over India has the maximum number of female pilots but there are many other avenues that are still unknown. With this celebration our aim is to see girls from the state of Manipur explore exciting careers available to them as engineers, air traffic controllers and dozens of other jobs within the aviation," said Radha Bhatia, President, Women in Aviation International (India Chapter). "We will continue our endeavour to introduce young girls to role models and educate them in a fun and supportive atmosphere. We are very fortunate to be able to partner with Lockheed Martin India and Airport Authority of India for this event. Their efforts in leading youth into STEM careers are truly commendable," she added.

“The next generation of engineers, technologists, aviators and scientists will be crucial to Lockheed Martin’s future and we want to do everything we can to encourage people to consider these careers. That’s why we’re delighted to once again partner with WAI (India Chapter) and AAI to encourage girls to take an interest in STEM subjects from an early age. Our support for Girls in Aviation is part of a much larger Lockheed Martin commitment to STEM and innovation initiatives in India,” said Phil Shaw, Chief Executive, Lockheed Martin India Private Limited. Post the airport tour, the students were given a small presentation about the industry and its intricacies. Also, an impromptu quiz competition added to the delight of the students who also won small tokens as prizes. Students also received an opportunity to interact with Najma Heptulla, Governor of Manipur, chief guest for the event and S.K. Panigrahi, Airport Director, Imphal Airport. (NewsVair)

Girls to fly high: Najma

Najma Heptulla addresses the gathering in Imphal East district on Wednesday. (Ngangbam Indrakanta Singh)

Imphal: Manipur governor Najma Heptulla on Wednesday said professions should not be gender-specific.

She was addressing a gathering during the celebrations of Girls in Aviation Day organised by the Women in Aviation International (WAI), India chapter, and Lockheed Martin at Classic Grande, Chingmeirong, in Imphal East district on Wednesday.

She said women and girls should be trained in every field, including those considered the domain of men and celebration of Girls in Aviation Day would introduce girls of the state to the wonderful career opportunities that aviation offers.

"Prior to 1970, women were restricted to serve only in support fields such as flight-simulation training, air traffic control and flight attendants in aviation industries. However, after 1970 they are allowed in military training and flying commercial airlines. Their strength is considerably increasing compared to number of women airline pilots across the world," the governor said.

Lt S. Vijaya Devi of the navy, who got Nari Shakti Puraskar award, said: "Manipuri women and girls have done us proud by excelling in different spheres of life, including sports, art and culture and hospitality among others. The girls of the state can do much more if they are given opportunities through training in every avenue and livelihood programme in line with the Prime Minister's vision of *Beti ki udaan, desh ka swabhimaan*". #On air connectivity and convenience of direct flight between Imphal and Delhi,

Heptulla said she would try hard to connect Imphal with other metro cities of India through direct flights. "This will help students of the state who are studying in those metro cities," she said.

The APD, Imphal airport, S.K. Panigrahi, said due to increase in number of air passengers in recent times (17 per cent last year), there is a big scope for India's youths in the aviation industry.

"With the UDAN (*Ude desh ka aam naagrik*) scheme and with the objective of 'Let the common citizen of the country fly', the aviation industry will provide many opportunities to the youths and so they should be trained to garner such opportunities and be ready to drive the particular industry," Panigrahi said.

The celebration was also attended by Phil Shaw, CEO, Lockheed Martin India, members of Women in Aviation International (India chapter) and school students. A short film on WAI India chapter was also screened during the function.
